

U13A

The U13 Falcon Football team started the season slowly with 15 keen soccer players getting to know each other. The team was unsuccessful in winning the first few games, but both Marco and Pramod (the coaches) worked diligently with the players, developing the strength and overcoming the weakness of each player to work as a team.

Through the season each player has worked out his position on the field. Matthew, Jahan, Louis and the two Leos have provided good defence to minimise the goals and aid the goalkeepers either Amrit or Lloyd. Cameron has been our roving mid fielder, supported by Nicholas, Matthew, Peter and Victor. Our forwards Fahim, Zhen and Darren have managed to break through the defences of most opposition and score a number of goals for the season. In all the U13s have scored 29 goals against 34 by the opposition for this season.

Some of the memorable moments of the season:

- Victor, the smallest player of our team invariably taking on the biggest player in the opposition
- Cameron's amazing goal against Wahroonga from nearly half way down the field
- Victor encouraging the players from the sideline against a mixed team, "North Sydney – now is not the time to be a gentleman!"
- The family picnic in the July holidays, when nearly all parents participated in the parents vs kids match. Better luck next year boys!
- The celebration from the team when Jahan, our back scored his first goal

In all it has been a wonderful season with the team progressively improving every week. All players including the coach are keen to continue next year and improve on this year's result.
